

**MAYOR PATRICK BROWN**

March 2019

Dear Friends,

I am pleased to offer my support to the Peel Children's Aid Foundation's latest \$5 million capital campaign called New Horizons. This campaign to build a 13,000 square foot community hub will strengthen and grow programs to allow the Peel Children's Aid Society to better serve children, youth and families. There are over 66,000 children in Peel Region who are living in poverty. This construction project will open in 2020 and will be a great addition in our community.

The Peel CAS is very excited about their new office and community hub which will be centrally located at Highway 401 and Hurontario Street and accessible by public transit. This community hub will be a place that welcomes and supports families at a vulnerable time.

This new building will include a large community room for events, classroom space, 16 meeting rooms, a 4,500 square foot gymnasium, an indoor and outdoor children's play area, a child welfare immigration centre and a large distribution centre to provide families with needed clothing and supplies.

I encourage you to support this campaign with a charitable donation. It will make a difference in the lives of many children.

Sincerely,

Patrick Brown
Mayor
